

Raketa

Stakanlardan raketa yasab,
havoga uching.

20 daqiqa · 7–10 yosh

KERAKLI NARSALAR

3 bir martalik
stakan

2 rezinka

Qaychi

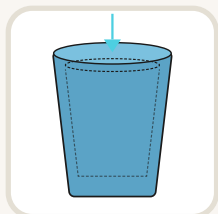

Yelim yoki
skotch

Qalamlar

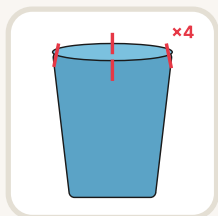

+ 3-varaq (bezaklar)

BOSQICHLAR

1-bosqich

Ikkita stakanni olib, **birini ichiga**
qo'ying. Ikki qavat devor mustahkam.

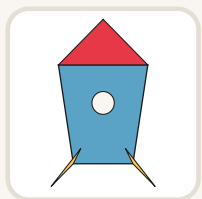

2-bosqich

Qaychi bilan stakan chekkasiga **4 ta**
kesim qiling — bir-biriga qarama-qarshi.

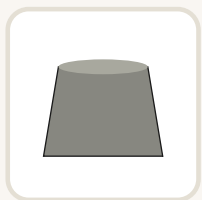

3-bosqich

2 rezinkani xoch shaklida kesimlardan
o'tkazing. Ular stakanlarni ushlab turadi.

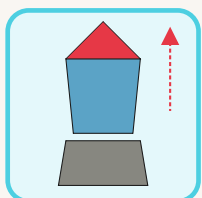

4-bosqich

3-varaqdagi bezaklar bilan raketani bezab oling.

5-bosqich

Uchinchi stakanni tagini yuqoriga qaratib qo'ying — uchirish maydonchasi.

6-bosqich **ЗАПУСК**

Raketani ustiga kiyib, pastga bosing — qo'yib yuboring!

⚠ EHTIYOT BO'LING — faqat yuqoriga uchding. Odamlarga qaratmang.

BILASIZMI?

Haqiqiy raketa soatiga 28 000 km tezlikda uchadi — samolyotdan 30 marta tezroq. Toshkentdan Samarqandga — 36 soniyada!

Men o'z raketamni uchirdim!

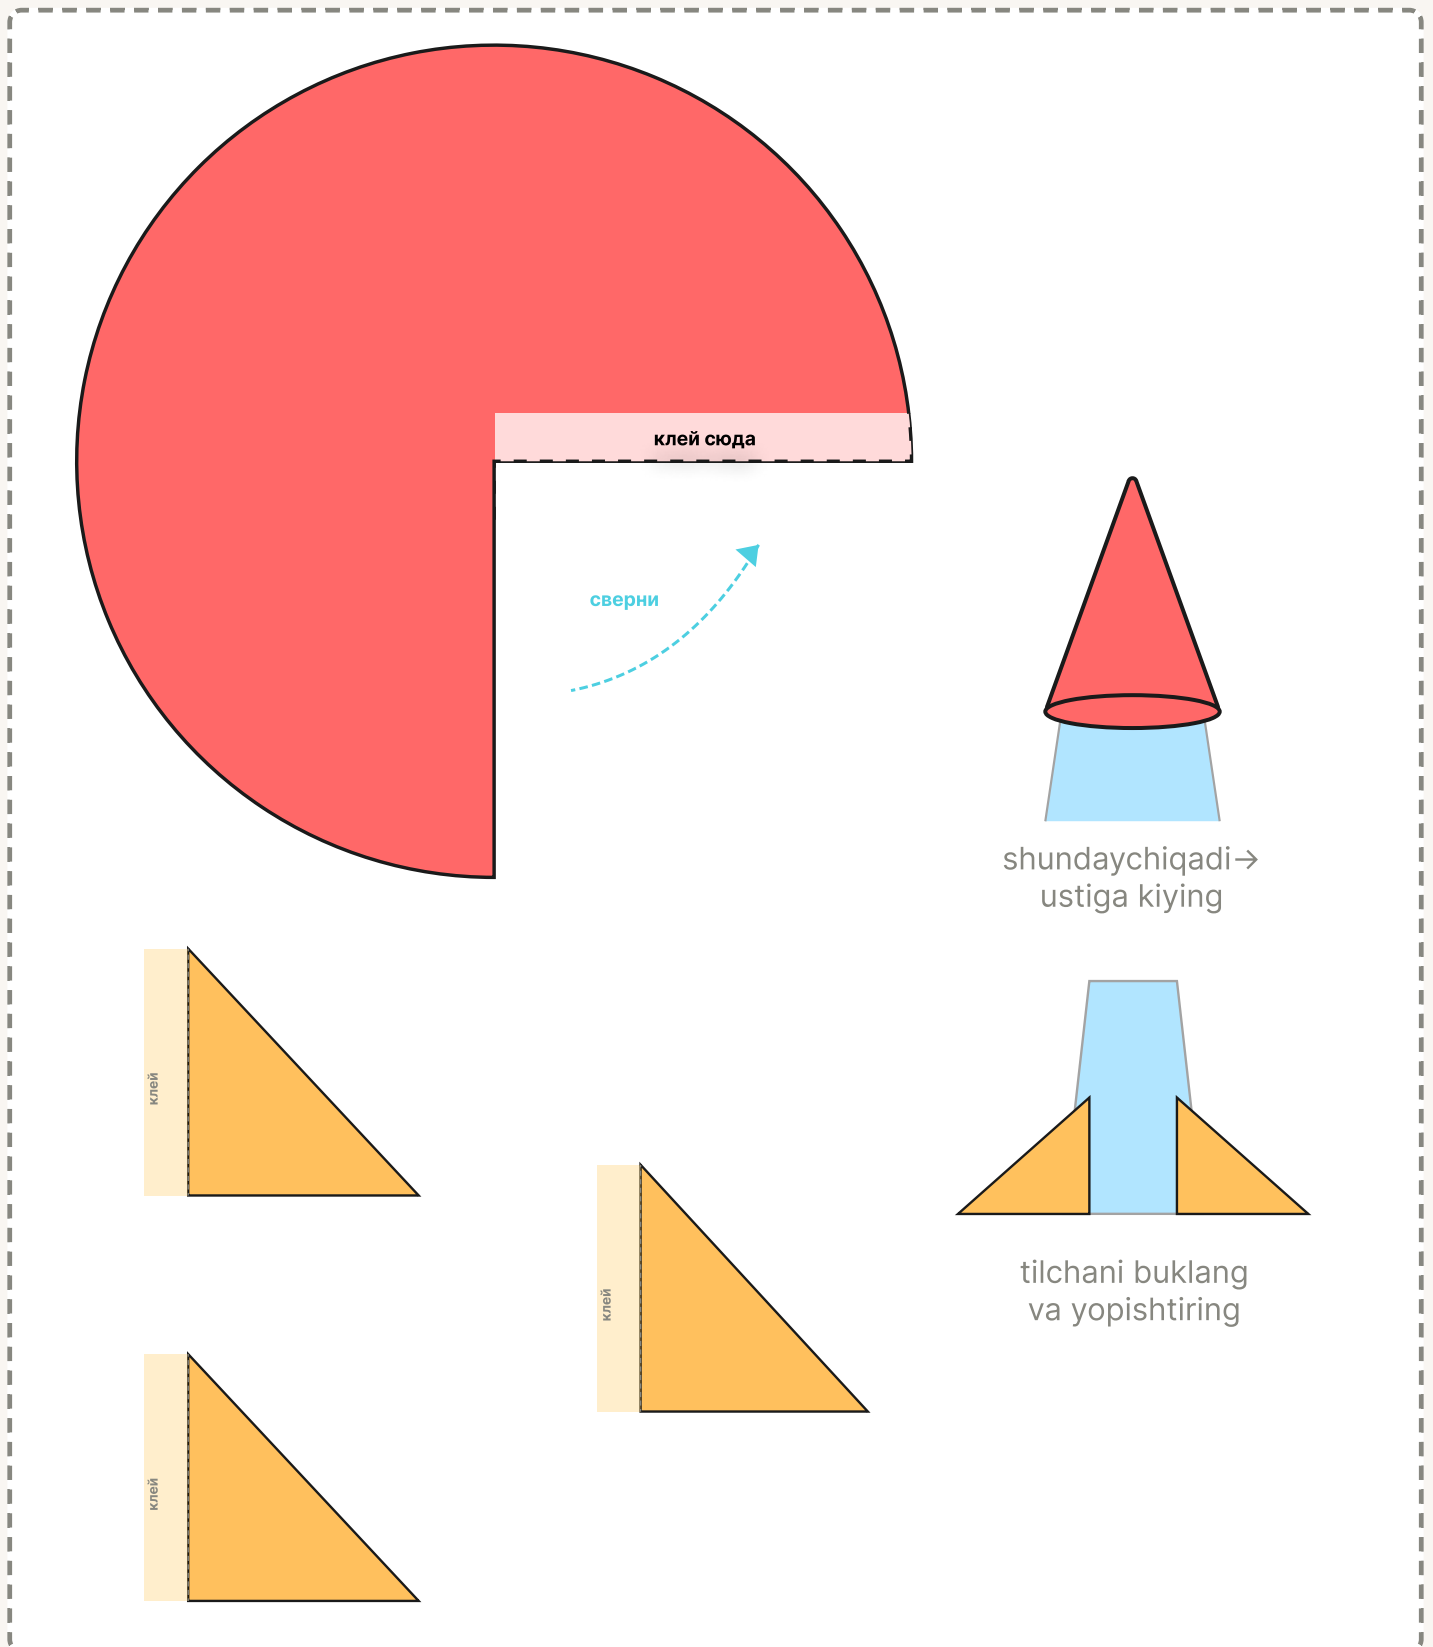

Raketa uchun bezaklar

11-MISSIYA

Chiziq bo'yicha kesib, punktir bo'yicha buklang va stakanga yopishtiring.

TUMSHUQ KONUSI — TAYYORLASH

QANOTLAR — TAYYORLASH (3 TA KERAK)

Raketa uchun bezaklar

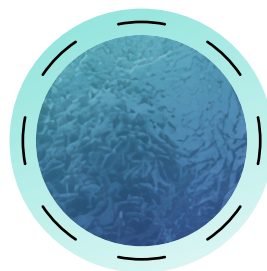

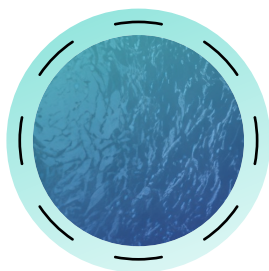

11-MISSIYA

Chiziq bo'yicha kesib, punktir bo'yicha buklang va stakanga yopishtiring.

ILLYUMINATORLAR VA YOZUVLAR

SCHOOL 21

UZCOSMOS

2 illyuminator — yopishtiring

O'zbekiston Respublikasi bayrog'i — yopishtirish
